Four bulkhead load lashing points

Removable rear corner post with tailboard restraint cords

The Ingimex Thor dropside is now available on the Citroën Relay as part of the Citroën Ready to Run conversion Scheme.

The exceptionally robust Thor body incorporates a range of operational and safety features not available elsewhere. The clever application of modern materials and finishes ensure a long and safe service life.

Standard features include 15 mm one-piece deck, recessed lashing rings, tail board restraint cords, flush fitted side and tail board locks and much more.
